

THE GRAZER

May 3, 2017

It's MAY!!!

Very soon the CSA season will be underway.

- For those of you who have pre-ordered them, May Shares will likely be delivered on Thursday, May 11.
Ramps have started to emerge, as have a few morels. Once it warms up later this week, hopefully we'll be seeing a tremendous bounty bursting forth in the forest! I'll bet the early spinach will be extra, extra sweet this year with such cool and overcast weather. Always a silver lining, right?!
- I'll confirm as soon as I get the final "5/11 is a go!" from the farm—and will include delivery details along with any special May pick-up hours, and other location specific information you may need.
- Best guess for the Early June delivery is still June 8th.
- I did not get to the farms for my usual Tuesday visit this week. If you are waiting for me to bring you back plant or other info, I'm planning to go later in the week, and will get back to you as soon as I possibly can.
- 2017 Meat and Poultry Order form will be posted soon!
There will be organically and pasture-raised Beef, Pork, Turkey, and Chicken available this year. Delivery will be directly to your home by the farmer in November.
