

# THE GRAZER

March 29, 2018

## Happy April, Happy Easter... Happy Spring!

This is the season of hope, and makes me think of the many CSA seeds and baby seedlings that are already beginning to gently open and unfold into recognizable food plants. It is such a wonder of nature! Fortunately, they are snug inside the greenhouses, safe from this unusually cold April weather.

The seeds can offer us a symbol and reminder of the promise of harvest goodness that will emerge from patient labors. Planting a seed of kindness can also make much goodness bloom!

Enjoy a safe holiday weekend! Thank you for your partnership with our CSA farmers; your early payment helps make the planting season financially stable.

**Here are a few ideas for brunch, and entertaining menus on this holiday weekend. Some of these recipes have a bit more cream, butter, cheese, and sugar than we usually have in our diet. Definitely celebrate and enjoy... of course, in moderation!**
